

The CBF Church of England Deposit Fund

Fund fact sheet – 31 December 2024

Investment objective

The fund aims to provide a high level of capital security and a competitive interest rate.

Investment policy

The fund is a diversified portfolio of sterling denominated money-market deposits and other instruments. It will principally invest in call accounts, notice accounts, term deposits, and money-market instruments, but may invest in other assets (including loans to diocesan authorities), which may be either liquid or illiquid in nature. The fund is actively managed, which means the manager uses their discretion to pick investments, in pursuit of the investment objective.

Who can invest?

Any church trust with objects connected with the work of the Church of England may normally invest in the fund. This can include parochial church councils, benefices and deaneries, bell ringers and Mothers' Union. The fund is available to Church of England schools and educational establishments as well as any other Church of England related organisation. If you are unsure whether you can invest in the fund, please contact Client Services.

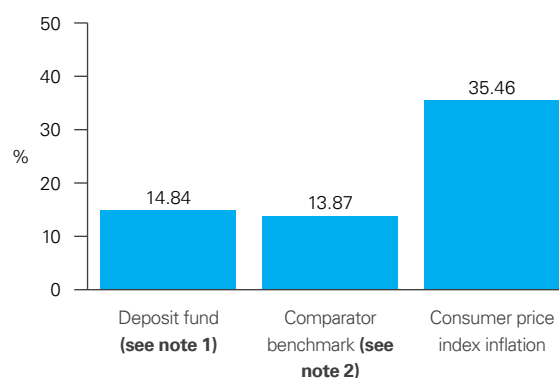

Sustainability approach

We believe that the primary role of sustainable investment is to drive positive change and this is best achieved by pushing companies to do more to address the major challenges facing us today. The fund is managed in line with our sustainability approach for cash funds which can be found at: www.ccla.co.uk/about-us/policies-and-reports/policies/sustainability-approach-cash-funds.

The FCA has introduced sustainable investment labels to help investors find products that have a specific sustainability goal. This product does not have a UK sustainable investment label because it does not have a sustainability goal.
